PROJECTS

Servision | UI/UX Designer & Frontend Developer

(Funded by K-Tech (Karnataka Government) Ideathon – 2023)

In this project I'm working on UI/UX designing of the website and developing a frontend using HTML, CSS and JavaScript. This website is to connect garages in the optimal way.

Portfolio | Link: <https://shivatsajbhat.vercel.app/>

This is my personal portfolio website made using React.js.

Notepad 2.0 - Text File Viewer and Editor | Group of 5

It is a simple text-based interface for viewing and editing text files using the C language. It allows users to perform basic CRUD operations on text files, along with additional features like cut, copy, paste, find, and replace.

PDFMailScraper

This is the project made using python. Where it lists the mail id present in the PDF. In this we can give multiple PDF at a single time.
